Education

University of Maryland, Baltimore County (UMBC) Baltimore, MD
Bachelor of Science in Computer Science Expected May 2027
Relevant Coursework: Operating Systems, Database Management Systems, Cyber Defence

Selected Projects

Cloud Portfolio Web Application
AWS EC2, Auto Scaling, CloudFormation, JavaScript
• Published a responsive portfolio on GitHub Pages with project filtering and a downloadable resume; authored AWS deployment configuration for a load balancer, two-zone EC2 Auto Scaling, health checks, and versioned S3 releases
Repository: github.com/james1231234/joseph-portfolio-site

Trinetra AI - Visual Intelligence Platform
Next.js, React, FastAPI, PostgreSQL
• Developed a camera intelligence platform concept for detection, monitoring, and incident workflows; built JWT authentication with FastAPI and frontend functionality with Next.js and React

Retriever Essentials - CMSC 447 Team Project
TypeScript, CSS
• Collaborate on a basic-needs impact dashboard for UMBC using synthetic data to develop metrics, visualizations, and reporting

SRIN Aviation Showcase
HTML, CSS, JavaScript, Canvas API
• Created an interactive aviation documentation and showcase site with flight-path visualization, technical specifications, and mission profiles

Unmanned Robotic Operating System (UROS)
RobotC
• Collaborated on a robot built from repurposed components; programmed motor coordination and tested movement behavior

Experience

University of Maryland, Baltimore County Baltimore, MD
Commons Operations Student Employee Current
• Support building operations, AV equipment, and event setups; coordinate with staff and track incidents and tasks in 7PointOps and Asana

Innodots Innovations
Summer Intern Summer 2026
• Explored software development and AI-assisted tools, including Google Antigravity, in a technology-focused work environment

Math Tutor Baltimore, MD
• Tutored student-athletes in calculus, algebra, and statistics; coordinated with academic advisors and faculty

Technical Skills

Languages & Data: Python, C++, SQL/PostgreSQL, JavaScript, HTML, CSS, pandas, Biopython
Frameworks & Platforms: React, Next.js, FastAPI, AWS EC2, Auto Scaling, CloudFormation, Kafka, Redis
Tools: Git, Linux, Bash, RobotC, JWT authentication

Certifications & Activities

Google Cybersecurity Professional Certificate; AWS Advanced Networking Specialty (course); CSS, Bootstrap, JavaScript & PHP course
Career Fair Volunteer: Supported AV equipment, event logistics, and technical troubleshooting
