JOSEPH THOMAS

Baltimore, MD | 443-683-7495 | jt619514@gmail.com
github.com/james1231234 | james1231234.github.io/joseph-portfolio-site/

EDUCATION

University of Maryland, Baltimore County (UMBC) | B.S. Computer Science | Expected May 2027

Relevant coursework: Operating Systems, Database Management Systems, Cyber Defence

TECHNICAL SKILLS

Languages & data: Python, C++, SQL/PostgreSQL, HTML, CSS, pandas, Biopython
Frameworks & platforms: React, Next.js, FastAPI, AWS EC2, Auto Scaling, Kafka, Redis
Tools: Git, Linux, Bash, RobotC, JWT authentication

SELECTED PROJECTS

Cloud Portfolio Web Application | AWS EC2, Auto Scaling, CloudFormation, JavaScript

• Published a responsive portfolio on GitHub Pages with project filtering and a downloadable résumé; authored AWS deployment configuration for a load balancer, two-zone EC2 Auto Scaling, health checks, and versioned S3 releases.

Repository: github.com/james1231234/joseph-portfolio-site

Trinetra AI - Visual Intelligence Platform | Next.js, React, FastAPI, PostgreSQL

• Developed a camera intelligence platform concept for detection, monitoring, and incident workflows; built JWT authentication with FastAPI and frontend functionality with Next.js and React.

Retriever Essentials - CMSC 447 Team Project | TypeScript, CSS

• Team project developing a basic-needs impact dashboard for UMBC; the prototype uses synthetic data for metrics, visualizations, and dashboard development.

SRIN Aviation Showcase | HTML, CSS, JavaScript, Canvas API

• Created an interactive aviation documentation and showcase site with flight-path visualization, technical specifications, and mission profiles.

Unmanned Robotic Operating System (UROS) | RobotC

• Collaborated on a robot built from repurposed components; programmed motor coordination and tested movement behavior.

EXPERIENCE

Summer Intern | Innodots Innovations | Summer 2026

• Explored software development and AI-assisted tools, including Google Antigravity.

Commons Operations Student Employee | UMBC | Current

• Support building operations, AV equipment, and event setups; coordinate with staff and track incidents and tasks in 7PointOps and Asana.

Math Tutor | Baltimore, MD

• Tutored student-athletes in calculus, algebra, and statistics; coordinated with advisors and faculty.

CERTIFICATIONS & ACTIVITIES

Google Cybersecurity Professional Certificate | AWS Advanced Networking Specialty (course)
CSS, Bootstrap, JavaScript & PHP course | Career Fair Volunteer: AV support and event logistics
